

HYDRA BOOST BIOME MASK

Technical File

Description

The Hyrda Boost Biome Mask will Repair dehydration, dryness, or dullness with this skin-quenching mask. Designed to nourish and transform the skin through Hyaluronic Acid, Centella Asiatica, Squalene, and a Ceramide Complex, this mask provides the ultimate glow factor.

This mask instantly targets dehydration with a powerful infusion of moisture-boosting ingredients, including a Ceramide Complex, Squalene, Hyaluronic Acid, and Centella Asiatica. The skin feels deeply hydrated and looks youthful and luminous. The ideal mask creates the ideal canvas for makeup application, ensuring that adequate hydration fills lines and wrinkles, and the skin appears plump and dewy. Ideal for use pre-event or pre-photography.

This Semi-Gel Tencel (100% organic cellulose) mask ensures optimal comfort. Luxuriously silky, flexible, and comfortable, this mask preserves the integrity of the key ingredients without absorbing them, unlike conventional masks. The active ingredients remain potent and are distributed evenly once in contact with the skin. After 16 hours of mask application, the richness and evenness of the bacteria in the skin are increased, resulting in a rebalanced and healthier skin microbiome.

Containing a rich cocktail of pre and postbiotics and carefully-selected antioxidants, vitamins and gentle actives to rebalance the skin microbiome and pH levels.

Benefits and Features

- Ceramides prevent the entrance of unwanted bacteria whilst retaining moisture through healthy lipids in the skin
- Squalene acts as an emollient, preventing transepidermal moisture loss, neutralising UV damage, creating supple and luminous skin
- Hyaluronic Acid acts as a humectant, attracting moisture to the skin and retaining it for longer periods of time, resulting in hydrated, dewy, and plump skin

- Centella Asiatica treats inflammation through medicinal properties whilst boosting antioxidant activity in the skin, lowering inflammation, and restoring moisture loss
- Extensive in-vivo testing results indicate a decrease in unhealthy bacteria and an increase in the skin microbiome diversity and overall health
- Suitable for any skin type but most effective for dry, dehydrated or mature skin
- Results with compound over time with repeated use

Key Ingredients

- Ceramides Complex
- Squalene
- Hyaluronic Acid
- Centella Asiatica

Salon Use

Apply the mask after cleansing the skin at the beginning of the treatment. Make sure to scoop out any surplus of the formula from the package and apply it over the top of the sheet. Leave the mask on for 15 minutes. When removing the mask, gently massage the remains into the skin for a few minutes. Do not rinse off.

You can use a tissue to absorb any excess. Then, continue your facial treatment as recommended.

Home Use

This is a great mask to use at home. It's very simple to apply and leaves no mess. Plus, the results are visually impressive. After cleansing the skin apply the mask on the face and leave it on for 15 minutes. Remove and gently massage the ingredients into the skin. Follow with the usual morning or evening skincare routine.
