Size: Retail 50mL

About

Key Ingredients

Extracts of horsetail.

Rich in saponins and silica, particularly recommended to purify and tighten the pores of combination, oily or prone to imperfections skins. Regulate sebum, balance the skin throughout the day and restore firmness and elasticity to mature skin.

Ulva compressa.

This green algae rich in marine pentasaccharide acts by increasing the synthesis of the extracellular matrix and collagen, de facto improving the barrier function of even irritated skin.

Via the activation of protein synthesis, notably collagen I and II, it also optimizes the consistency of the skin corneal layer.

Tusli or Holy Basil.

A plant widely used in ayurvedic medicine, it has anti-inflammatory and energizing properties thanks to the ursolic acid it contains.

A cocktail of peptides.

Boosts cell metabolism and restores the vitality of the skin.

Actions

Skin anti-fatigue
