

Sensi Boost

Soothing Lotion for delicate skins.

Soothing lotion for delicate skins.

Sensi Boost is a concentrate for sensitive and reactive skins that immediately calms discomfort and redness.

Easily breakable glass phial containing a milky purple lotion with a delicious powdery scent

Sizes: 7 x 2 ml sale size/2 x 1 ml samples not for sale

About

Key Ingredients

Marshmallow extract .

Soothes, moisturizes and softens the skin.

Polyphenol from tomato peel.

Fights skin allergy mechanisms and inflammation. Polyphenol also regulates pro-inflammatory mediators and reduces the release of pro-inflammatory cytokines therefore reducing blood flow.

The result, a protected and comfortable skin.

Actions

Sensi Boost lotion has an instant calming effect. Redness gets blurred over the long term.

This vial has soothing properties that reduce the reactivity and sensitivity of the skin as well as irritation and discomfort.

The skin comfort persists all day long.

Sensi Boost also reinforces the skin's natural defences by acting on pro-inflammatory markers.

Use

Conditions

Suitable for delicate and sensitive skins that are prone to redness with feelings of irritation and discomfort.

Home Application

It is recommended to use Sensi Boost vial as a 7-day treatment morning or evening.

Insert the phial breaker to break it and push the nipple onto the head of the phial.

Apply the lotion to the whole of your face, neck and décolletage with light effleurages before applying your usual creams.

If any leftover, close the phial and apply the remaining in the evening.

Salon Use

Activation

Step #4 of Skin Care Treatment

Apply with light effleurages on the face, neck and décolletage.
