- cystic acne
- oily skin
- inflammation
- irritated, weak, damaged & overworked skins
- eczema
- rosacea
- peri orbital dermatitis
- psoriasis
- cold sores
- burns
- rashes
- fungal infections like tinea
- bacterial infections
- absolutely anything!

What’s in JooMo?

The ingredients actively repair damages to the compromised skin barrier caused by additives and preservatives in other skincare products.

The skin health and barrier is also put at risk by many intensive skin treatments promoted in the industry.

It is within the synergy of the active ingredients that JooMo acts so powerfully and swiftly.

- Organic Sea salt – reduces inflammation, extensive healing thru minerals and trace elements, restores balance to all skins
- Organic Thyme Honey – heals, calms, antimicrobial, anti-fungal anti-bacterial

- Unrefined cane sugar – soothes, nourishes, heals, corrects skin flora
- Essential oils of Sweet orange – balances oil flow, improves circulation, detoxes
- Essential oils of Clove – anti-inflammatory, healing
- Essential oils of Cinnamon – improves circulation, antibacterial
- Orange juice – astringent stimulates cell metabolism, pH modifier
- Guar gum – anti-inflammatory and an emollient
- Acacia gum- soothing and anti-inflammatory
- Saponins – natural cleanser that is anti-irritant, anti-oxidant, anti-inflammatory, and anti-fungal,

What does JooMo do?

- Empowers the skin to flourish its own good skin microbiome.
- Maximises the efficiency of the skin's immune system by delivering the ingredients for good bacteria to thrive
- Promotes a healthy and balanced pH. of the skin. Acidic skin pH. at 4 to 4.5 keeps the good bacteria attached to the skin whereas an alkaline pH. of 8 to 9, found in most cleansers promotes their removal.

How does it do it - The science behind it?

- *'Good' Skin Bacteria (MIRR)[™] Technology* is a key game changing science with its ability to empower, NOT change, the skin's natural environment.
- *'Good' Skin Bacteria (MIRR)[™] Technology*, active in all JooMo® skin care products, creates a healthy skin environment to prevent ailments: 'Healthy Skin' is a natural barrier to infection and allergic reactions.
- By inhibiting pathogenic microbes (i.e. infection causing bacteria) while encouraging the growth of desirable micro-organisms, *'Good' Skin Bacteria (MIRR)[™] Technology* creates the ideal environment for them to flourish: these 'good bacteria' then look after and protect your skin.
- Repairing the damage caused by a lifetime of using synthetic products, the specially balanced natural and preservative free ingredients enables the body/skin to revert to its natural state through pH balancing, oil & moisture regulation, electrolyte (salt) balancing, immune system regulation and skin cell regeneration.

How to use JooMo in your store, no matter what skin products you stock.

In salon treatment for non Genetic stockists.

- **As a cleaner** - after makeup is all removed. Squeeze a pea size amount on the fingertips, mix with water and massage into the skin. Rinse off with water.
- **As a skin health treatment** - After makeup removal and cleansing and before the rest of your skin treatment begins, mix a teaspoon of JooMo face wash with a teaspoon of water. Mix well and apply with a mask brush to the face and neck and leave on for 5- 10 min. This will encourage a healthy skin microbiome – like gut health but for the skin!
- Laser and IPL- Use before the treatment as a cleanser
- Needling - Use before the treatment as a cleanser
- Microdermabrasion and Peels – Pre & post treatment as a cleanser and as a skin health treatment.

Additional use for Genetic stockists in salon treatments

- Mix JooMo face wash with Synchro to massage the face before mask application 3:1
- Mix a baby pea size dot of JooMo with 10 drops of cells life mix together and mix in
- Spot treatment for acne or dry spots and apply mask on top.

JooMo Face For Home Use

1. As a cleanser - use daily after makeup is removed. Squeeze a 5c size piece onto finger tips, mix with a little water and massage all over the face and neck, rinse off with water.
2. As a skin health treatment – for a Good Bacteria Skin treatment. Apply as above and leave on the skin for 3 to 5 minutes. Rinse with water to remove
3. As a spot treatment - apply a small amount overnight on any skin problem: e.g. pimple, dry or flaky skin spot
4. With Genetic products at home:
Mix half a pea size of JooMo face wash with 5 drops of Cells Life for optimum hydration
Or mix a drop of JooMo with Synchro and apply nightly for immunity boosting

JooMo Body Wash 3 in 1 Cleanse, Moisturise and Shave

1. Mix anybody moisturiser with JooMo body cleanser 3:1 for all skin nutrition to cells of skin and to encourage good bacteria on the surface. Use morning and night
2. Mix synchro with JooMo body cleanser 3:1, this is Exceptional in cases of all skin conditions to deliver nutrition to the cells of the skin and empower good bacteria to the surface for strong immunity e.g. eczema, psoriasis,
3. After shaving, apply a small amount and rinse off after 3 to 5 minutes.
