

let's get
practical

1

Take 4 pieces of water saturated gauze and decant 2 pumps of Neutraliser Plus onto each piece.

?

Application of Nimue's Neutraliser Plus

Neutraliser Plus offers a dual action - it is both an anti-oxidant and anti-inflammatory treatment as well as neutralisation in one.

2

Using 2 pieces at a time, gently stipple from the forehead down. Use the last 2 pieces of gauze to gently wipe over the skin, making sure the active treatment is removed completely.

3

Follow by wiping over the full face, neck & décolleté with a water saturated compress - proceed with the Nimue treatment protocol.
