

PREPARATION

Conditioner

500ml

pH4.5

A conditioning skin treatment to promote skin health restoration.

Active ingredients

primary ingredients

- 7% Triple Alpha Hydroxy Acid Complex (skin exfoliation and renewal)

secondary ingredients

- Petitgrain Oil (degreasing, anti-inflammatory)
- Tea Tree Oil

Product benefits

- Improved texture, clarity and freshness of the skin
- Accelerated skin rejuvenation process
- Degreasing and deep cleansing properties
- Anti-bacterial, anti-inflammatory benefits

Application technique

- Apply one or two pumps (1 = 5 ml) to dry gauze/cotton pads to face, neck and décolleté
- Condition twice where necessary for optimum degreasing
