

Element Barrier

100ml /
20ml

pH6.0

Skin barrier protection in a lightweight non-oily emulsion, against environmental elements and extreme temperatures and wind

Active ingredients

primary ingredients

- Complex of botanical Phytoceramides (Moisturises the stratum corneum and improves the corneocyte cohesion)
- Artemia Salina Extract (plankton extract that restores skin functioning, activates cellular functions and provides infra-red protection)

secondary ingredients

- Protection Complex (organic and inorganic ingredients)(broad spectrum protection against UVA i, UVA ii and UVB rays)
- Vitamin C Ester (anti-oxidant and activates collagen synthesis)

Product benefits

- Reinforcement of the cohesion of the skin barrier
- Long lasting hydration
- Protection of membranes and cell DNA
- Skin comfort and protection against skin irritation
- Infra-red protection to reduce solar and thermal skin ageing

Application technique

am only

- Apply a generous layer to the face, neck and exposed areas and massage into the skin
- Re-apply every 2-3 hours during continuous exposure
- Use over prescribed day moisturiser
- Suitable for all skin classifications from age 15 onwards
