

# BASICS

## Sun-C Environmental Shield

50ml

pH7.5

A new, smarter protection against the effects of the electromagnetic light spectrum, including IR and HEV. Provides pollution protection against all environmental factors such as wind, dirt, humidity, pollen, smog, smoke and seasonal changes. Lightweight, non-oily and provides a mattifying effect to the skin.

### Active ingredients

#### primary actives

- Fused ring Cyanoacrylate (stops ROS formation)
- Environmental Shield Polymer (complete protection against urban pollution)

#### secondary actives

- Dimethylmethoxy Chromanol (anti-oxidant)
- Vitamin E Acetate (anti-oxidant and moisturiser)

### Product benefits

#### primary benefits
