Expert tips

Super Hydrating Serum and Super Hydrating Mask can be used together as a power couple for increasing skin hydration

Great to help alleviate the symptoms of a Transitional Period: dryness, flakiness, increase in sensitivity

A hydrated skin is a healthy skin

- A restoration product that can be introduced from phase 1.
- Delivers superior and immediate hydration
- Increases accumulation of internal hydration and water reserves
- Prevents TEWL with a filmogenic humectant effect

Delivery system

- Nanospheres - Promotes penetration & efficacy of actives

Actives

- Phytoprotect - Protects & regenerates
- Hydrating Bio-Complex - Hydration
- Hydrosoluble Xylans Algae Extract - Restores skin functioning
