

Hyaluronic Ultrafiller Serum vs Super Hydrating Serum

30 ML

30 ML

SKIN CLASSIFICATIONS

All skin classifications
(Problematic skin with dehydration only)

All skin classifications
(Problematic skin with dehydration only)

CONCEPT

- Works in all layers of the skin
- Hydration is derived from two Hyaluronic Acid molecules
- Has a triple action approach, providing anti-pollution, anti-oxidation, anti-ageing benefits within the skin together with deep hydration
- Balances water loss (TEWL) with water reserved

- Works predominantly in Stratum Corneum
- Hydration is derived from Hydrating Bio-Complex
- Nourishing effect on the skin
- Restores and balances skin hydration
- Provides skin comfort
- Ingredients delivered into the skin with nano-emulsion via nanospheres

KEY FOCUS

- Rejuvenation

- Restoration

BENEFITS

- Instant and deeper long-lasting hydration
- Flash filler effect/plumping
- Anti-oxidant effect (increases anti-oxidant enzyme. Thioredoxin Reductase = decrease in ROS)
- Anti-pollution effect (increases Sequestosome protein expression = decrease in pollution damage)
- Anti-ageing effect (increases MMP inhibition = decrease in collagen degradation)

- Immediate hydration due to humectant effect, balancing water levels
- Retains water in the skin
- Prevents surface TEWL
- Maintains collagen health long-term

KEY ACTIVES

- Acetylated Hyaluronic Acid
- Crosslinked Hyaluronic Acid

- Phytoprotect
- Hydrating Bio-Complex
- Hydrosoluble Xylans Algae Extract

DELIVERY / SKIN PENETRATION MECHANISM

- Penetration enhancer, Dimethyl Isosorbate, allows for penetration through Stratum Corneum
- Molecular weight of Hyaluronic Acid does not require a delivery system for deeper penetration

- Delivery system: Nano Emulsion via Nanospheres

Hyaluronic Ultrafiller Serum vs Super Hydrating Serum

TEXTURE

- Lightweight, good absorption

- Nourishing, rich in texture

ENVIRONMENTAL INFLUENCES

- Comfortable for use in high humidity zones
- Ideal for seasonal changes and continual use, if required

- Suitable for very dry conditions
- Ideal for cold weather
- Not comfortable for use in high humidity zones
- Periodic use

UNIQUE UPSELLING POINTS IN A PROFESSIONAL TREATMENT

- Unique HA molecule, Acetylated Hyaluronic Acid
- Lightweight
- Immediate skin comfort and plumping effect
- Superior hydration
- Slow release of HA
- Barrier repair

- Protects skin barrier
- Prevents moisture loss
- Nourishing
- Hydration due to Hydrating Bio-Complex
- Provides skin comfort during periods of skin dryness

AGE

- 20 upwards

- 30 upwards (due to more nourishing texture)

APPLICATION (AM AND/OR PM)

- AM and/or PM
- Use after Nimue Cleanser and Conditioner
- Massage a thin layer into the face, neck and décolleté
- Follow with Nimue moisturiser and Nimue SPF (AM)
- May be used daily, as required, or for periodic use depending on skin requirements
- Recommended during the Transitional Period

- Recommended during the Transitional Period

CLINICAL TESTING

Yes (Independent Clinical Efficacy Testing)

- 28 day study
Skin Hydration: Increased by 47% after 28 days of treatment

Wrinkle Depth: Decreased by 16% after 28 days of treatment
- 24 hour study
Skin Hydration: Increased by 50% after 2 hours, with a 24 hour hydrating effect

- None
