

Sun-C Tinted Cream

60ml

pH5.5

LIGHT

MEDIUM

DARK

An exclusive multifunctional tinted cream for use on the face that provides a total protective system for the skin with the addition of an advanced anti-oxidant complex, moisturising factors and colour pigments to compliment the Nimue Skin Health Programme.

Active ingredients

environmental protection properties

- Micro-fine Titanium Dioxide (inorganic physical shield)
- Phenylbenzimidazole Sulfonic Acid (PBMSA) (organic chemical shield)
- Bis-Ethylhexyloxyphenol Methoxyphenyl Traizine (BMT) (organic physical shield)
- Butylmethoxydibenzoylmethane (organic chemical shield)
- Polysilicone-15 (organic chemical shield)

actives

- Octocrylene, Polycrylene, Polymer (environmental protection booster and photostabiliser)
- Yeast polysaccharides (moisturisation)
- Anti-Oxidant Complex
 - Sodium Ascorbyl Phosphate
 - Tocopherol Acetate (protects stemcells and cellular DNA and reduces the effects of ROS)
- Fluorophlogopite and Lauroyl Lysine (velvety texture and matte finish)
- Colour pigments (Mica, Titanium Dioxide and Iron Oxides provide lustre and adequate colour intensity)

Product benefits

- Evens out minor imperfections on the face
- Superior certified broad spectrum (UVA, UVB) protection
- Anti-Oxidant Complex protects against harmful effects of free radicals and reduces visible signs of photo ageing
- Light reflecting particles reduce the appearance of dark areas, pigment spots and redness
- Provides the skin with a soft and velvety feel

Application technique

am

- Apply to clean, dry skin
- If exposed to large amounts of UV radiation, re-apply every 2-3 hours
- Avoid the skin around the eye area
- Re-apply after exercise, perspiration or water activities
- Use over prescribed day moisturiser
